

WE NEED YOUR SUPPORT!

When students learn a world language, it gives them more than a skill– it helps them level up. Not just in their career, but in the world at large.

Campuses across the country are finding success with their interdisciplinary language programs.

ADMINISTRATION

Collaborate with colleagues in STEM and beyond to recognize language skills as complementary to their fields, and vital to students' future success in a global economy.

**INTERDISCIPLINARY CONNECTIONS
THAT MIGHT INSPIRE YOUR PROGRAM:**

**STEM+
BUSINESS+
LANGUAGE+**

Northern Arizona University offers award-winning Interdisciplinary Global Programs (IGP) in which undergraduate students pair a BS in STEM or business with a BA in language and spend a year abroad completely immersed in the host country language and culture. IGP is a 4.5–5-year program, with the fourth year spent abroad doing both coursework and internship at partner institutions. These innovative programs prepare students to be global citizens in their field of choice.

Learn more about this innovative program at <https://nau.edu/igp/>

**GLOBAL AND
INTERNATIONAL
STUDIES**

At **IUPUI** they have developed a program for Global and International Studies that prepares students for careers in a global economy. The School of Liberal Arts offers an interdisciplinary major and minor in International Studies.

Students learn a modern language, focus on a specific region of the world, study abroad (for the major) and graduate with the tools they need to be a global citizen.

See how IUPUI combines individual interests with the needs of a changing world at <https://liberalarts.iupui.edu/international>

**VISTA HIGHER
LEARNING**

Your Specialized Language Publisher. As a specialized publisher, we focus on what we love and do best—developing world language materials that get instructors and students as excited about language and culture as we are. vistahigherlearning.com
