

## Flash cultura Video Program

The dynamic, engaging **Flash cultura** video program draws from the cultural themes addressed in the text and provides an entertaining conclusion to the **Avance** section of each unit. Young people from all over the Spanish-speaking world share aspects of life in their countries with each other. The similarities and differences among Spanish-speaking countries that come up through their exchanges will challenge you to think about your own cultural practices and values.

The segments provide valuable cultural insights as well as linguistic input; the episodes will expose you to a wide variety of accents and vocabulary.

Here are the **Flash cultura** episodes featured in **Protagonistas**.
